

MAKE APPLICATION FOR POSTAL BONDS

(Special to The Times-Dispatch.)
Washington, June 12.—Information made public today by Postmaster General Hitchcock shows that postal savings depositors in Virginia have made application for \$7,277 of the third issue of postal savings bonds to be distributed on July 1. Application for this amount has been made by twenty-three depositors, and it is interesting to note that more than \$6,000 of the total amount of bonds applied for were those in the registered class, which indicates that they are being purchased as a permanent investment. Applications have been received for only two coupon bonds, one of the \$20 denomination, the other of the \$500. Of the registered bonds application was made for nine of the \$20 denomination, four of the \$50 and five of the \$500 denominations, making a total of \$6,650 of registered bonds. In the amount of bonds applied for Norfolk leads the other cities of the State with \$2,350, and following in order are Richmond, \$2,100; Alexandria, \$1,200; Bedford City, \$1,000; and Abingdon, \$250. The total amount on deposit in these cities on May 31 was as follows: Norfolk, \$25,647; Richmond, \$7,568; Alexandria, \$3,577; Bedford City, \$1,789; Abingdon, \$527.

MANY GIFTS FOR VASSAR

Miss Helen Gould Said to Be Donor of Students' Hall.
Poughkeepsie, N. Y., June 12.—A students' hall, to cost \$150,000, which has been desired for a number of years by the Vassar College girls, was announced today as being the gift of a person whose name is not to be divulged, but who is understood to be Miss Helen M. Gould. Announcement of the gift was made by President James Monroe Taylor at the close of the forty-seventh annual commencement program in the chapel at the college.

Plans and specifications have already been completed for the building. The money is at hand, and the contract will be awarded at once. The building will form the social center at Vassar. It will contain a big assembly hall and various rooms, as desired by the students for social purposes. It will stand in the open space west of North Hall.

Dr. Taylor also announced that another friend of the college had promised to erect a house for the secretary, Miss Ella McCabe. He declined to disclose the name of the giver. A gift of \$5,000 from Mrs. Russell Sage was also announced. This school will complete a building which Mrs. Sage gave a year ago. This gift, with those from the classes, which amount to \$18,200, makes the total amount of the gifts to the college this year \$112,200, besides the \$150,000 for the student hall.

The class graduating to-day contains 213 members. This is the largest class ever graduated from Vassar.

PUBLICITY GIVEN LOCAL MAN'S STORY

Emil Vager, the Well Known Painter, Tells of His Recent Experience.

Twenty-five per cent. of the people of Richmond find life a burden and have little real happiness. The cause is nervous debility, and it is produced by modern conditions in a big city. This statement was made recently by one of the specialists who are giving some remarkable demonstrations at the Polk Miller Drug Company, No. 531 East Main Street.

According to this specialist, the hustle and worry incident to metropolitan life is too much of a strain on the average man or woman, and chronic nervous debility is the result. The specialist claims that no individual can hope to succeed or enjoy life when once the disease is established and that comparatively few people know the cause of their poor health and lack of vitality.

"Tired, droopy, half sick men and women are very numerous in all large cities," say these specialists. "They have uncertain appetites, poor digestion, little ambition and feel almost too tired for work most of the time. They suffer from timidity, have no initiative and haven't enough good, rich blood in their veins to make them capable or self-reliant. Their nerves are in such a state that they imagine themselves afflicted with various diseases at different times. The real trouble with them is debility, produced by the life they are forced to live. There is little of this ailment among country people."

"The medical profession, as a whole, has recognized these facts for a number of years, but little was done to overcome this ailment, so far as the general public is concerned, until a tonic was introduced in Europe some time ago which proved effective. A company has been organized to put a similar preparation on the market in the United States. The tonic is called 'Tona Vita' in this country, and it is now being introduced in many cities here. We have charge of this work in Richmond, and we expect to get wonderful results."

Mr. Emil Vager, a painter, who resides on Mosby Street, made the following statement recently: "I had been run down physically and was in a very bad nervous state. I had stomach trouble, also gastric and intestinal distresses, combined with bowel troubles. I tried 'Tona Vita' with extremely gratifying results. I am practically cured after taking two bottles. I expect to take a couple more to make sure."

The specialists will meet all callers at the Polk Miller Drug Company from 9 A. M. to 8 P. M. all the rest of this week, and will give a free sample of the new tonic to those who wish to try 'Tona Vita.' The medicine is sold with the understanding that it must prove satisfactory to the purchaser or the price is refunded.

GRACE MAY RECOVER

Operation Discloses That Bullet Did Not Sever Spinal Cord.

Newman, Ga., June 12.—Eugene H. Grace, who was mysteriously shot at his home in Atlanta last March, and has since been partially paralyzed, was given an equal opportunity with the bullet supposed to have severed his spinal column. Members of the Southside Boys' Branch of the Young Men's Christian Association will be given an equal opportunity with the bullet supposed to have severed his spinal column. The ball was not removed, but it was found that the spinal cord was not severed, nor was the bullet in the spinal column. It was imbedded in one of the vertebrae.

The boys from twelve to fifteen years will be taken to Quantico, along the Potomac. The older boys will start on June 27 and return July 11, while the younger ones will go from July 19 to 25. Branch Secretary J. C. Edwards, of the Southside Boys' Branch, says that the boys will be given a good time if they take advantage of the opportunity.

Fourteen workers in the employ of the American Telephone and Telegraph Company arrived yesterday in South Richmond, where they will be for the next three months working on the installation of a modern plant. The exchange will be re-located.

The entire business of the company for the city of Richmond passes through the Southern exchange, which was built here in order that it would be out of the fire zone. The system has become in many places obsolete and unable to meet the demand for increasing traffic. Five telegraph operators and twelve telephone operators are employed in the offices in the Leader Building.

Mr. Edwards Undecided.
The Rev. Deatur Edwards, of Fredericksburg, who has been called to the Clepton Church, to fill the vacancy caused by the resignation of the Rev. L. N. Loftin, has returned to his charge without having the church officers any inkling as to his intentions. He will return, however, next Sunday, and will preach at both services. He has gone over the proposition to leave the church, and as he is familiar with the field and with the people, it is thought that he will be able to give a favorable answer.

Stone, of Hermitage, who sued a merchant of that place for \$900 for alienating his wife's affections. MORE BALDHEADED WOMEN THAN MEN, SAYS AUTHORITY

That's Why Women Should Abolish Dandruff and End Scalp Itch.

One noted authority says that there are five baldheaded women to every four baldheaded men, and loss of hair among women is rapidly increasing. This is the startling statement published in one of the standard magazines.

This would indeed be distressing news for women were it not for the fact that PARISIAN SAGE will surely prevent loss of hair from either men or women. Ladies, don't worry; this great authority may be right and may be wrong.
